The objective of this model of education is to nurture self-reflective, caring, and socially responsible individuals who can grow in a challenging and multicultural environment. This is UMacau’s educational requirements for its students. As an important vehicle for carrying out Community and Peer education, the Residential Colleges defined their core educational objective, which is to help students meet the requirements in the five Areas of Competencies—Healthy Living, Interpersonal Relation and Teamwork, Leadership and Service, Cultural Engagement, and Global Citizenship—through systematic planning of all courses, programmes, and activities. Assessments of students learning outcomes via self-, peer- and teachers-assessment are carried out as a part of learning methods.

UNIVERSITY OF MACAU

I. About the University of Macau (UMacau)

The University of Macau (UMacau) was founded in 1981. Its predecessor was the private University of East Asia. Through thirty years of development, UMacau has become a leading university and also the only public comprehensive university in Macao. Ever since its founding, UMacau has nurtured over ten thousand outstanding graduates for society.

To better support higher education development in Macao and to meet society's need for high-quality professionals, UMacau relocated to its new campus located on Hengqin Island, Guangdong province, in August 2014. The new campus is under the jurisdiction of the Macao SAR. It covers about 1.09 square kilometers, is 20 times larger than the old campus, and can accommodate about 10,000 students. On the new campus UMacau implements a system of residential colleges (RCs) modelled upon the successful experience of top universities like Oxford, Cambridge and Yale.

For further information on new campus, please refer to:

http://www.umac.mo/new_campus_project/

UMacau EMBLEM

The emblem of UMacau features a five-towered crest encircled by golden rings and the name of the university in Chinese and Portuguese.

- The key on the book is the key to knowledge
- The waves represent the university in its inland setting in the South China Sea.
- The bridge links together Eastern and Western cultures.
- On the ribbon is a Chinese motto listing the five virtues of an ideal scholar: humanity, integrity, propriety, wisdom and sincerity.
- The colours are red for hope, blue for the joy of well-being, and gold for the advancement of humanity.

MOTTO

Inscribed on the emblem is a Chinese motto listing the five virtues of an ideal scholar: humanity (仁), integrity (義), propriety (禮), wisdom (知), sincerity (信), which is also the motto of the UMacau.

II. ACADEMIC REGULATIONS (2/3)

ABSENCE

1. A student who cannot attend classes because of illness must inform the Dean of the faculty or the head of the independent academic unit concerned in writing at the earliest opportunity. When longer absence is necessary (over three days) or when absence from examinations is in question, a student must submit in writing an application for leave of absence to the Dean of the faculty or the head of the independent academic unit concerned, together with a certificate signed by a registered medical practitioner.
2. A student who, during his studies, desires leave of absence for more than two full consecutive days for non-medical reasons must apply to the Dean of the faculty or the head of the independent academic unit concerned in writing at the earliest opportunity, stating the reasons for which the leave of absence is sought. Permission for such leave will only be granted in exceptional circumstances and on a case-by-case basis.
3. A student who is absent without applying for leave of absence from a course for more than 20% of its scheduled teaching periods in the aggregate will not be allowed to take the final examination and will receive a failing grade for that course. If the course in question is a compulsory course, a student must retake it.
4. If the expected period of leave is of a significant duration covering an entire semester or a year, students should apply instead for deferment/suspension of studies.

II. ACADEMIC REGULATIONS (3/3)

EXAMINATION

1. A student who for medical or other compelling reasons is unable to sit for any course examination must apply in writing with documentary evidence at the earliest possible moment (but not later than seven working days after the examination concerned) to the academic unit for leave of absence.

Students may also go for medical consultation at local clinics or hospitals on their own expense. ALL international students have to join our UMacau Medical Insurance Scheme (please see P.29-34). If you have already purchased your own medical insurance at your home country, you may request for exemption from joining UMacau Medical Insurance Scheme. Since UMacau medical coverage is very limited, we would suggest international students to have their own medical insurance during their exchange period in Macao.
